Turn new ideas into profitable businesses in less time with Ventureworks.

Ventureworks

Ventureworks is an innovative collaboration and workflow solution for incubators and venture capital companies. This tool helps you achieve synergies through online channels to capture and generate new ideas or business ventures and intellectual property. It provides instant, secure access to information and business plans and enables collaborative evaluation of ideas by entrepreneurs, investors and innovators worldwide.

Ventureworks streamlines and accelerates your business building process through automated workflow processes, notification and calendaring. It helps standardize all your collection of information in a single area and easily monitors your portfolios of companies

Key Features

Ventureworks is a comprehensive solution that facilitates the venture capital development process:

- Entrepreneurs can submit proposed business plans and ideas from any location worldwide
- Business plans can be submitted, reviewed and tracked as they go through the due diligence process
- Company specific electronic document libraries can be web-linked, uploaded and stored
- Forums, calendars, task managers and news tools can be used to collaborate
- Resumes can be submitted to portfolio companies that have received investment

Ventureworks External Solution is a web-based solution for venture capital firms that straddle corporate boundaries and may need to collaborate with external industry experts. It also provides functionality to collaborate with the entrepreneur to develop the business idea.

Ventureworks Internal Solution is a Microsoft Exchange/Outlook based solution for venture firms that need a solution to internally collaborate on business plans that are received through the decision process.

Key Benefits

Venture Capitalists and Investors are able to build successful businesses in less time by leveraging the Ventureworks solution. As your organization diversifies its portfolios and offerings, you can extend reach globally with secure, reliable and real-time collaboration.

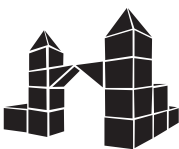

To learn more about the types of web-based solutions Aestix provides, please visit us at www.aestix.com or contact us directly at info@aestix.com

Average Deployment Time

Ventureworks can be deployed in 3-5 weeks, depending on organizational requirements, strategic objectives, architectures and user composition.
